

Do you like machine vision software and working with customers? So do we!

MVTec, headquartered in Munich, is known world-wide for its machine vision competence. We are an SME run by our founders and we develop and sell software solutions for customers from all kinds of sectors (medical, pharmaceutical, automotive, food, etc.). For now 25 years, innovative software solutions have been winning over customers from all over the world. To write the next chapter of our success story we are looking for our new office in France for a

Pre-Sales Engineer (m/f/d), FR/EN or FR/DE, Industrial image processing, Lyon

Your mission:

Mainly, the future employee guarantees to expand and develop the french market (France, french part of Switzerland and Belgium) in collaboration with the Sales Manager. More precisely, your missions will consist in:

- Customer visits with the sales representative to offer qualified technical advice
- Technical support of the sales team throughout the sales cycle
- Close collaboration with customers or local distributor to provide technical training
- Answer customers' technical questions and provide support by collaborating with the solutions team in Germany
- Delegation of complete feasibility studies

Your skills:

- 3-5 years of professional experience in a similar position in industrial image processing and algorithm development
- Knowledge of HALCON and Machine Vision
- Knowledge of C++/C# programming with deep experience in the automation industry + good technical understanding
- Bachelor's degree in Science/Engineering or Economics with a specialization in Computer Science
- Fluent in French and English, German is a plus

- Excellent customer relationship skills
- Proven negotiation and creative problem solving skills

Your benefits:

- Permanent and full time contract (french law) with a fixed salary
- Flexible working hours and home office possibilities
- Job creation: Space for your own ideas and initiatives
- Growing within the company: trainings and career development opportunities
- Flat hierarchies and fast decision paths
- Family team spirit with a strong, transparent and innovative corporate culture
